Continuation of 10. Other (including any explanation in support of the above items): After reviewing the Appeal Brief, some part of the Appeal Brief do not contain the right items

1. Real Party in Interest requires only (1) George Guang Yang, Independent Inventor/Appellant not with (2) Baoquoc N.To, Examiner, Commissioner for Patent, USPTO;
2. The claims to be reviewed by the Board of Appeal and Interferences are the claims which were finally rejected not the original claims presentation (applicant filed on or the amendment claims after the final Office action dated 08/02/2006;
3. No claims amendment to be allowed in the Appeal only if clarifies or correcting the 112 antecedent basic issues raised by Office (without introducing the new matter which means does not change the scope of the claim). The amendment such as in Appeal Brief "original" to "server" would change the scope of the claimed invention which is not allow; eventhough, the change is just to be consistence with the specification.

The format of the amendment is: an amended claim requires underline for inserting and knockout for deleting .
